

Generic 2-Factor Authentication

Sign In To Your Generic Account

Sign in to your generic account.

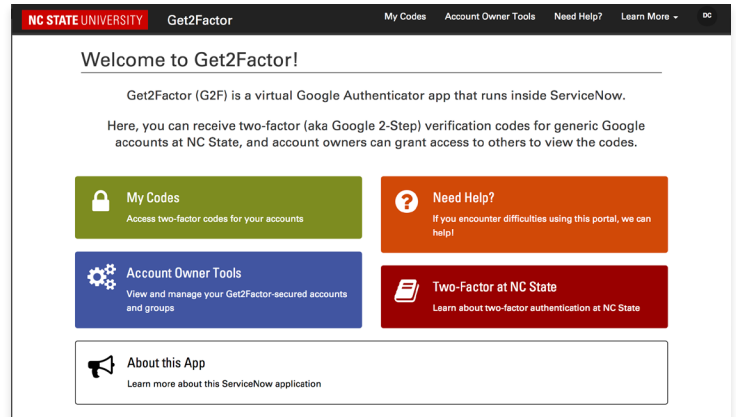

If you are already signed in to your NC State account, you can do this by clicking your icon and selecting "Add Account"

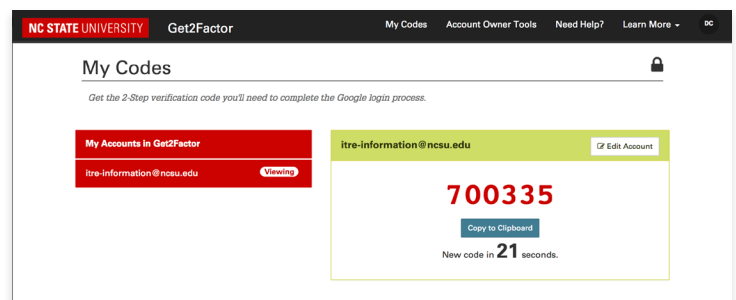

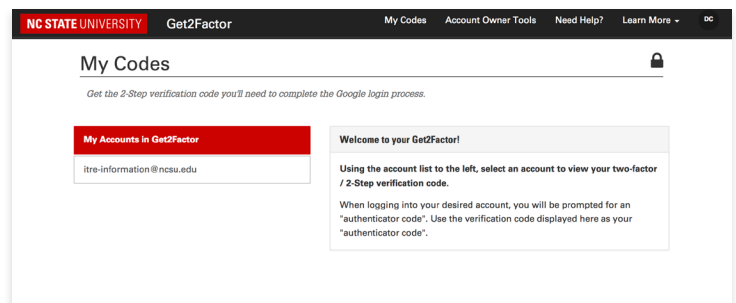

Get The 2-Factor Access Code

Go to <https://ncsu.service-now.com/g2f>

This is the NCSU Get2Factor App. Click the green "My Codes" button to see a list of generic accounts you have access to. Click on the account you would like to sign in to and you will be presented with a code

Copy the code from G2F and paste it into Google in place of a Google Authenticator code. That's it! You should now be logged in to your generic account.
